

# BLACK HOLE NEWS

Issue 3

Monday 2nd August 2010

Yesterday saw the whole Sub Camp go down to 'Its a Knock Out'. We hope you all enjoyed it; please feedback to us your memories so we can get some stories in the Black Hole News

We enjoyed getting round to other units on Deep Space last night and trying their International Food. We thank all those groups who put on a small sample of their local cuisine. We also had JAM FM here with us for an hour and they were really excited with what we were doing. Thank you to all those who spoke on the radio.

Tomorrow we are having a campfire entertainment evening, at present we haven't had many groups put themselves forward for a sketch, stint or song. Please inform us by midday Tuesday so we can put a program together.

The Volley Ball games have been plotted in reception, it is up to you when you play them, however, the first round must be played by 6pm Tuesday evening so we can get through all the rounds by the end of the Jamboree. It is up to you to arrange your match and come up and get a Referee from the Sub Camp team

Sadly the main toilet block on Deep Space has been "graffitied" . Please refrain from doing this. If anyone sees this being done please inform the Sub Camp Team

Alien Attack!

An Alien object was found this morning on Deep Space - but not the one the Sub Camp team are looking for. As it started to rain, Rebecca Ashworth, a leader of 25th Colchester Guides, went to get out her welly boots for the first time since camp last year. Luckily she looked into the right boot before putting them on, as she discovered a shrivelled, unidentified green object inside a plastic wrapper! She pulled it out to discover a pile of green slime in the foot of the boot!

The UFO was finally identified as a cucumber with a best before date of August 2009! Yuk!! How the Cucumber got there is a mystery but we're sure the truth is out there.

## Fact Of The Day

How do black holes form?  
When a large star runs out of fuel it can no longer support its heavy weight. The pressure from the star's massive layers of hydrogen press down forcing the star to get smaller and smaller and smaller. Eventually the star will get even smaller than an atom. Imagine that for a moment an entire star squashed up into less space than a tiny atom.

## Birthdays

Happy 16th Birthday to Jamie Mayhew from 1st Broughton Explorers,  
Hope you have a good day

## Joke Corner

Q: How do spacemen complete the countdown?

A: Astro-three, Astro-two, Astro-one, astro-nought!!

Q: What do you do if you see a spaceman

A: Park in it, man!

Q: What do astronauts put on their toast?

A: Space jam

## Weather Update

It will be rather cloudy at times with some bright or sunny spells. A scattering of showers will form, these locally heavy. Feeling pleasantly warm in the brighter spells.

Monday night

Showers will slowly die out this evening, then dry and clear for the rest of the night. Some mist patches may form in sheltered areas.

## Funk Workshop

Learn Locking & popping...  
And become the funkiest dancer at NorJam

Here in Deep Space

Daily at 4.30pm-5.30pm

No Experience Necessary

## Missing

Sheep Rustling  
Missing from Penparcau Scout site, Deep Space, Dolly the sheep born Newburgh Jamboree, Wales 1997

Reward for safe return!

## Tomorrow

AM- Planned in is Off Site Activities

PM- Free time

DeepSpace- Campfire Entertainment 7.30pm

Central- International Evening Main Stage

## Where's the Alien & Marguerite?

The Alien left reception two nights ago but we don't know any of his whereabouts. Also Marguerite was last seen yesterday down at 'It a Knock Out' We need to know where these are as we fear they may have gone missing as we haven't had any reports back

Please post daily updates in the post box so we know where 'The Alien and Marguerite' are.

Please don't forget you can contribute to the Black Hole News, Post all entry's in box in reception
